## SUSPECT

# S E P S I S

**Shivering**  
Fever or  
Very Cold

**Extreme**  
Pain or  
General  
Discomfort

**Pale** or  
Discolored  
Skin

**Sleepy,**  
Difficult to  
Wake or  
Confused

**I Feel**  
Like I  
May Die

**Short of**  
Breath

## SAVE LIVES

**If you suspect sepsis, act quickly.** For every hour treatment is delayed, the risk of death increases by as much as 8%.
